Victoria Again Honors Bert

For his "magnificent swim" strait conqueror Bert Thomas is showing receiving a cheque for \$1,031.25, a token of Victoria's gratitude, from Mayor Claude Harrison. Mrs. Harrison is seen at left and Mrs.

Thomas, right, at civic dinner at Empress hotel last night. Big Bert promised to wear Victoria's gift flag on his boat when he tackles the Canadian National Exhibitions Lake Ontario competition in September.

Chinese Strength Held Aid To U.S.-Soviet Friendship

GENEVA (AP)—Diplomats speculated today that the United States and the Soviet Union drew closer together at the Geneva Big Four conference because of the growing strength of Communist China.

It is an open secret that the Russians have been rather surprised and even a bit dismayed by the swift and total victory of the Communist revolution in China. It presents the Russians with the spectacle of a nation of nearly 600,000,000 promising to become a power along the Soviet borders.

At the Geneva conference, the chiefs of government of the United States and the Soviet Union talked face to face. President Eisenhower often spoke directly to the Soviet leaders without the presence of the British and French delegates.

ONLY LIP SERVICE

The U.S. consistently has opposed Red Chinese moves which Washington felt might lead to China's domination of the Pacific. On its part, Moscow has given lip service to the aspirations of its Communist neighbor in the Far East, but little more.

Premier Bulganin insisted here that the U.S.S.R. favored Chinese Communist demands, but his restrained manner implied there would be no direct economic or military support for any Red Chi-

nese adventure in the Formosa strait. He may even have been washing his hands of the whole affair by saying it was a matter for direct talks between the United States and Peiping. The implication was that Red China could not expect Soviet support if it became entangled with the United States on this particular issue.

CHINESE ADVANCE QUICKLY

Western diplomats returning from Peiping have reported Soviet technical experts impressed at the way the Chinese are catching on to the business of industrialization. Furthermore, the Russians are reported to have noted that the Chinese are using new skills to turn their vast manpower into a formidable armed force which needs only nuclear weapons to make it practically invincible.

Many months before the Geneva "summit" conference was conceived, Western diplomats in Moscow were saying they detected growing Russian uneasiness about the China situation.

Such factors may have made it mutually advantageous for the U.S. and the Soviet Union to relax tensions between them while keeping a wary eye on big China, diplomats say.

New Colonist Series

Parents Must Learn To Assert Authority

A return to the lost art of parenthood is the real need today and the new thought in child rearing.

The Daily Colonist will tell the full story in a provocative series of 12 daily articles beginning Thursday. The series, by author Howard Whitman, is based on hundreds of interviews with child psychologists, juvenile court judges, psychiatrists, probation officers, welfare agency officials and parents themselves.

The basic lesson learned is this: fathers and mothers must learn to reassert their authority. They must learn to be guided by their natural instincts rather than the untested ideas of the so-called experts. They must learn to enforce discipline in the family and use punishment as a beneficial tool.

All this and more is explained in this startling, new series called "Parenthood Without Hokus."

This series is called the welcome obituary of the mistaken notions and theories which child psychologists have foisted off on unsuspecting parents for the last 20 years.

Here is the evidence, from the lips of the experts themselves, that the "let the child

do as he pleases" theories of child rearing have backfired not only against society, but against the very children who were reared that way.

The series touches on the problems with children of all ages.

Trio Facing Court Martial

WASHINGTON (UP)—The three turncoat U.S. soldiers who are on their way home after defecting to Red China will be arrested for court martial as soon as their ship docks in San Francisco Friday, defence department officials said last night.

Eisenhower Says:

Reds' Sincerity Faces Acid Test

WASHINGTON (UP)—President Eisenhower said last night that the "acid test" of Russia's newly-professed spirit of co-operation will come at a showdown foreign ministers meeting in Geneva next October.

Mr. Eisenhower also said in a nationwide radio-TV report on last week's Geneva Big Four conference that the momentous meeting produced a "sharpened realization throughout the world that the United States will go to any honorable lengths to attain peace."

But, in firm tones, he made clear that it is up to the Russians to engage in "real reconciliation" when the Big Four foreign ministers meet in Geneva next fall.

Mr. Eisenhower said that during the Geneva conference "each side assured the other earnestly and often that it intended to pursue a new spirit of conciliation and co-operation in its contacts with the other."

The president noted that it will be up to the foreign ministers to translate the "generalities" of the Geneva talks into "actual specific agreements."

West Germany's 79-year-old Chancellor Konrad Adenauer announced in Muenster, Switzerland, yesterday that he will go to Moscow in a personal attempt to hammer out a plan for German reunification before the Big Four foreign ministers meet in Geneva in October.

BERLIN—Soviet Communist party chief Nikita S. Khrushchev said yesterday of the Geneva conference that "both sides won the conviction that neither side wants war."

On June 7, a railway car was entered at the Canadian National Railway yard at Johnson street and hundreds of dollars worth of goods ruined.

C. E. Rivett-Carnac, RCMP assistant commissioner, told a magistrates' convention at Vancouver last month that juvenile delinquency in B.C. has risen 28 per cent in the last year.

Informal last night of the damage at Heaney's, Mayor Claude Harrison, who heads the city police commission, said: "I think juvenile delinquency here is on the increase."

"If Mr. C. B. Fry will promise to keep his word and will let me know when he is next attending Lord's I will be happy to supply the pyjamas, female and Bikinis."

Next time women appeared at Lord's in "Bikinis," he said, he would promenade in his pyjamas.

Among the replies he received Monday from the cynical, irreverent present, generation, was this one:

"If Mr. C. B. Fry will promise to keep his word and will let me know when he is next attending Lord's I will be happy to supply the pyjamas, female and Bikinis."

Bikinis Shock Lord's

LONDON (Reuters)—London had a heat wave with temperatures above 80 degrees and women turned up at stately Lord's cricket ground in their bathing suits.

This was too much for C. B. Fry, who is 83, takes his cricket seriously and remembers when such going-on could not have happened in the sacred precincts of Lord's, home of English cricket.

One of England's greatest all-round athletes in his time, Fry is one of the few sportsmen who have represented his country at both cricket and soccer. A first-class Oxford honors graduate, he once held the world's broad jump record.

"Bikinis," he snorted and dashed off an explosive epistle to the editor of one of the popular evening newspapers.

Next time women appeared at Lord's in "Bikinis," he said, he would promenade in his pyjamas.

Among the replies he received Monday from the cynical, irreverent present, generation, was this one:

Nine Trucks Smashed

\$5,000 Damage Caused In Orgy of Vandalism

Police Seek Youths

Victoria's mounting juvenile crime wave erupted again Saturday night when vandals caused \$5,000 damage to nine trucks in a company lot.

Two teen-aged boys are believed responsible for causing the damage in broad daylight, and within sight and sound of Douglas street, in the Heaney Cartage and Storage Ltd. yard on Quesnel.

They crashed the vehicles into each other, and punctured holes in aluminum truck bodies.

Company president William Heaney told The Daily Colonist last night that it is the most severe blow struck by vandals against the company, which has been plagued for months by minor damage, petty pilfering and gas stealing.

He said keys are left in trucks in the lot for safety purposes, to enable quick removal of equipment in case of fire. Night-shift mechanics were not on duty at the week-end, and there is no watchman. The lot is fenced on all sides.

DESTRUCTIVE SPREE

The vandals started up the trucks and indulged in a destructive spree.

They collided some vehicles head-on, and sideswiped others.

Grills were broken and fenders ripped and crumpled. Truck bodies were pushed in, and the side of one truck box was ripped off.

An instrument was used to punch holes in the bodies of other vehicles.

Police discovered that two youths were seen running away from the lot early Sunday evening.

Investigations are continuing.

Vandals struck again last night for a second time in a week at Mount View high school.

They smashed three windows and entered the building.

HEAVY TOLL TAKEN

Vandals have been taking a heavy toll of school windows in Greater Victoria since the summer vacation began.

Police departments have many cases of malicious damage on file.

Three youths will be sentenced at Saanich court Thursday for smashing down a gate with a car and damaging three houses in an outbreak last week at Killarney Lake, Saanich.

They broke windows with beer bottles, smashed dishes and fittings, holed a canoe, destroyed drapes, bedding and furniture.

On June 7, a railway car was entered at the Canadian National Railway yard at Johnson street and hundreds of dollars worth of goods ruined.

C. E. Rivett-Carnac, RCMP assistant commissioner, told a magistrates' convention at Vancouver last month that juvenile delinquency in B.C. has risen 28 per cent in the last year.

Informal last night of the damage at Heaney's, Mayor Claude Harrison, who heads the city police commission, said: "I think juvenile delinquency here is on the increase."

First Navy Pilots Get Wings Here

Three reservist midshipmen received pilots' wings at HMCS Malahat last night, at the first such ceremony here. The three, from left, Daniel Munro of Squamish, Patrick Dalton of Sidney and Ernest Radies of Vancouver, are

the first naval fliers to be trained on the West Coast. They are members of VC 922 Squadron, RCNR, based at Patricia bay. Cmdr. E. G. Savage, DSO, DSC, senior Royal Navy liaison officer in Canada, pinned on the wings.

Fear of Inflation

Chancellor Clamps Down On U.K. Spending Spree

By RONALD MACLURKIN

LONDON (Reuters)—Chancellor of the exchequer, R.A. Butler, Monday clamped down on a current national spending spree which is threatening inflation and peril to Britain's economy.

Butler told the House of Commons that from today on, people will not find it so easy to buy cars, radios, television sets, refrigerators and the like on the installment plan. They will have to put down a down payment of 33.3 per cent of the total purchase price instead of only 15 per cent as before.

This and other stern measures had been expected before the chancellor made his speech. On what stockbrokers nicknamed "Black Monday," shares fell by many millions of pounds sterling today on the London stock exchange.

The chancellor also announced:

1. Banks are being told to haul in a lot of the cash they have outstanding in loans and overdrafts.

2. Government departments will be much stricter about authorizing all but the most essential plans for capital spending proposed by local authorities.

3. Spending on new projects within nationalized industries will be postponed or slowed up—but without jeopardizing such essentials as coal production and nuclear power.

Butler went on to knock the feet from under recent world-wide rumors that Britain intended to allow a wider fluctuation in the value of the pound sterling.

He said: "This has led to sales of sterling, which will adversely affect our reserves in July."

These rumors have reached such unreasonable proportions that I cannot allow them to remain unanswered.

"I want, therefore, to make it clear that the British government regards the period in front of us as being one of hard work and consolidation to strengthen the home front before we make any further forward move on the exchange front."

Star Files Suit

HOLLYWOOD (UP)—Film star Elizabeth Scott Monday filed suit for \$2,500,000 against Confidential magazine on grounds it published a picture story which implied she was "prone to indecent, illegal and highly offensive acts in her private and public life."

The actress said the story in the September issue of Confidential was "willfully, wrongfully, maliciously and completely without truth."

The suit was the fourth filed recently by well-known Hollywood figures against exposure magazines. The Superior Court action was filed by attorney Jerry Giesler for Miss Scott.

Giesler is also representing actor Robert Mitchum and tobacco heiress Doris Duke in suits against Confidential and singer Sammy Davis Jr. in a suit against Hush.

The suits against Confidential now total \$6,500,000. Mitchum seeks \$1,000,000, and Miss Duke \$3,000,000.

Atom Plant Shut For Second Time

OTTAWA (CP)—Canada's first atomic energy reactor began contaminating the famed NRX atomic energy reactor at Chalk River, Ont., has been shut down for the second time since December, 1952, it was announced Monday by W. J. Bennett, president of Atomic Energy of Canada Ltd.

However, Mr. Bennett said the shutdown, expected to last for several weeks, is in no way comparable to the Dec. 12, 1952, breakdown caused by a major power surge in the reactor.

He said a special fuel rod being tested in NRX, code name for the multi-million-dollar reactor, contaminated the heavy water atomic pile. Automatic devices shut down the reactor immediately the fuel

rod began contaminating the heavy water. The contaminated heavy water was dumped into storage tanks.

"The repair job will be difficult, but the shutdown was not due to a major accident," Mr. Bennett said. "The faulty fuel rod was removed without incident within a few hours."

He did not say when the latest shutdown occurred.

Mr. Bennett said the heavy water must be purified before the reactor can be put back into operation. All of the repair work would be carried out at Chalk River.

The main operating room in the NRX building was not contaminated.

Oil in Water Tanks

Whisky from Taps

Jinx Follows Mazatlan on Nightmare Cruise

VANCOUVER (CP)—A group of 70 seamen from the 33-man crew of a seized Liberian ship returned here Sunday by land from San Pedro, Calif., after what they described as a "harrowing nightmare" on the high seas.

Penniless but smiling, the men who set out on the steamship Mazatlan almost two months ago for a two-week cruise to Mexico and return, called the ship "jinxed."

The Mazatlan has been seized by the Seafarers' International Union (AFL) on a lien for back wages.

The British Columbia sailors signed on the ship at Victoria May 29 after she had been converted into a "luxury" liner by Yarrows Ltd. But the vessel already was known on the Pacific coast as "jinx-ship."

Prior to her sailing, the Mazatlan had been subject of a major controversy between its new Liberian owners and ship workers in Victoria who declared the vessel "hot" following union disputes in Seattle and Coos Bay, Ore.

On the advertised "luxury" cruise to Acapulco, Mexico 178 passengers boarded the Mazatlan at San Diego, said seaman Fred Norfolk, 25, of Vancouver, in an interview.

"After the first few days out, 'the boilers started popping like corn,' said Peter (Pop) McMullen, engine-room wiper and at 'over 70' the oldest Canadian SIU member.

Then "everything started to go haywire."

The staterooms near the engine room lacked air conditioning and the passengers slept on deck.

When the ship ran short of oil and water, it docked at Le Paz, Mexico. There the hoses got mixed up and oil was pumped into the water tanks.

At Le Paz the crew also found out there was little or no money on the ship.

"We needed groceries bad and the ship-agent said he would give us some at Le Paz," said steward John Ball.

"He left us 25 watermelons and two packs of weiners."

All but three passengers left the Mazatlan when she reached Acapulco, saying they "had enough." Remaining were a newspaper woman, an 88-year-old man and a woman dancer.

On the return trip, only one of the ship's four boilers still functioned—for a time. When it blew out, the vessel drifted helplessly for 20 hours until picked up by a tug and towed to San Pedro, al-

most a month from the start of the two-week cruise.

While adrift, food became a serious problem. Lifeboat rations were raided and when these gave out, the crew and the three passengers subsisted on "pancakes, crackers and jam."

When customs men at San Pedro investigated the reported disappearance of 110 cases of liquor, one of the men went for a drink at a tap. Out came pure scotch.

None of the men interviewed knew how that happened.

"We expected to get a month's pay and maybe a bonus when we went on this junket," said one seaman, "but all we got was laughs."

Refused Medical Aid

Snake Cult Leader Bitten To Death At Prayer Meet

ALTA, B.C. (UPI). The founder and prophet of a strange mountain snake-handling cult died Monday of a diamondback rattler's bite, refusing medical aid to the George Went Hensley, 70, who 56 years ago started the snake rites that have since become a public problem because of their sometimes fatal results, was bitten at prayer meeting Sunday afternoon.

Calhoun County Sheriff G. C. Guilford said the venerable zealot, who founded his faith on an obscure passage in the Bible, was struck on the wrist when he tried to return the snake to a box after handling it for 15 minutes.

During the faith demonstration Hensley "had it around his neck and all over his face, without being bitten," Guilford said. The sheriff said the prayer meeting had been going on for a week but Sunday, apparently, was the first time the worshippers used a snake.

When he arrived Sunday night at Alta, a Chattahoochee river town in the northwest Florida pinelands, Guilford said he found Hensley at the house of a member of the church.

"There were about 100 people milling around the place and

Value Of Bee Cited

Deputy agricultural minister W. W. MacGillivray said at a Vancouver Island bee-keepers' picnic Sunday that the bee was important to British Columbia not only for honey, but also for pollination of seed and fruit crops.

Some 80 bee-keepers and their families were at the picnic at Fulford harbor. Guests included Mrs. MacGillivray, Mr. and Mrs. L. B. Robinson, Mrs. V. E. Thorpe, Dr. and Mrs. Joseph Pearce, Mr. and Mrs. A. E. Cole of Duncan, A. Davis and E. H. Smith.

G. V. Wilkinson, secretary of the Vancouver Island division of the British Columbia Honey Producers' Association, said that Dr. C. A. Jamieson, Dominion apiculturist from Ottawa, would attend the next meeting in Victoria August 15.

Channel Beats First Attempt

CALAIS, France (AP)—A Mexican tailor who sought to be the first swimmer to cross the English channel this year gave up Sunday—beaten by the chilly waters.

But Alberto Gomez Valladares of Tampico said he would have another try in 15 days.

NEW-TYPE POWER

The first gunboat to be powered by gas turbine engines was tested recently in the English channel.

Garden Notes

Salt Kills Slugs—And the Lawn!

BY M. V. CHESNUT, FRHS

When I was a youngster, one of my besetting ambitions was to catch a sparrow alive. I spent hours stalking the pesky birds with a butterfly net, all to no avail, and constructed dozens of weird and wonderful contraptions out of soap boxes, sticks and string, none of which succeeded in trapping a single specimen.

My dad, watching my frustrated antics one day, called me over and with an air of great secrecy told me he knew an old Indian trick, a sure-fire method of catching a sparrow. "All you have to do," he said, "is to put a pinch of salt on the bird's tail."

I often think of this youthful experience when members of the gardening fraternity ask me if they can rid their gardens of slugs through the use of salt. Sure you can. All you have to do is to find each slug and drop a pinch of salt on him, and he'll curl up and die pronto.

Of course, you'll have to do most of your slug hunting by night, with the aid of a flashlight, for the slimy creatures have a habit of holding up through the daylight hours to escape the birds.

And you'll have to wait until your intended victim condescends to before you administer the coup de grace, for salt is an excellent way of rendering your garden plantless as well as slugless.

My neighbor, Ernie, has just discovered this unpleasant fact, and he learned it the hard way. I found him blowing his top and

Book Contest Spurs Readers

Bert Thomas isn't the only one who has conquered the Strait of Juan de Fuca this summer. John Orr and Ian Cameron, already safely across, were joined yesterday by Peter Reid.

The three elementary-school boys, however, were "swimming" through waves of flour and salt in the Victoria Public Library when Thomas was stroking through waves of water and salt.

They were among more than 200 participants in a summer-reading contest for school children in grades 4 to 8. Some of the "swimmers" still are not far off the Victoria shore in the flour-and-salt relief map in the library, but several have only a few of the 25 waves in the strait to conquer.

ONE WAVE—ONE BOOK

Each wave represents a book read during the summer and reported on to Mrs. Anneke Bertsch. Fifteen books must be

B.C. To Lead Canada To Nationhood

The industrial development of B.C. will see Canada achieve its proper nationhood, shifting the centre of population from Ontario and Quebec and spreading it more evenly across the country, Attorney-General Robert Bonner told the annual convention of B'nai B'rith at Spokane yesterday.

"No area of North America exceeds the long-range potentialities of the Pacific North-west," he said.

Mr. Bonner said B.C. occupies a unique role in the future development of the United States in that the province serves as a corridor between the continental U.S. and Alaska, whose widespread development is just beginning.

Weather Forecast

July 26, 1955

Cloudy with showers in the morning. Little change in temperature. Winds southeast 15. Precipitation Monday, nil; sunshine, 8 hours, 42 minutes.

RECORDED TEMPERATURES

High — 61 Low — 50

FORECAST TEMPERATURES

High — 64 Low — 52

Sunrise — 5:38 Sunset — 9:01

East Coast of Vancouver Island — Cloudy with showers in the morning. Little change in temperature. Winds southeast 15. High at Nanaimo, 65.

West Coast of Vancouver Island — Cloudy with rain in the morning. Little change in temperature. Winds southeast 15. High at Estevan Point, 62.

Eat Your Troubles Away

Lelord Kordel 15-Day Diet

BY LELORD KORDEL

This 15-day dieting diet can be your way to new vigor and health. Follow the menu and recipes every day, and you can be sure every part of you will be thoroughly nourished to give its best service, and to give you a new lease on life.

For 10th Day

Breakfast—Fruit, if desired; cereal, milk, butter, sugar.

(see recipe) (served with mixture of honey and fresh or frozen fruit blended together; let your imagination go to town this morning!); beverage: multiple vitamin-mineral tablet; two leechin capsules or one teaspoon leechin granules.

Lunch—Lamb or beef stew; tomato juice; fruit salad with dressing made of honey and skim milk powder; beverage: multiple vitamin-mineral tablet.

Dinner—Leafy green salad; yogurt or buttermilk dressing; steak—all you wish; baked potato (try ripe avocado instead of butter); fresh fruit; beverage: multiple vitamin-mineral tablet; two leechin capsules or one teaspoon leechin granules.

Lower the flame and cook over a slow fire for about 12 minutes longer. Place a layer of the mush in the bottom of a greased shallow casserole or baking dish, cover with a layer of the tomato-mushroom sauce, add a third layer of the grated Cheddar cheese, and repeat, ending up with a topping of the mush.

Saute the onions (if used) in the heated oil, add the mushrooms and saute lightly, then stir in the tomatoes, half of the salt, and the garlic. Allow to simmer very slowly for about 1½ hours, stirring frequently to prevent sticking. (The garlic clove may be removed after the first 30 minutes, if only a mild flavor is desired.) Then prepare the mush by mixing the meal with the cold water, and adding gradually to the salted boiling water, stirring until the mush thickens and bubbles to a boil.

OIL HEAT

To those considering changing from hard fuels to the convenience of Oil, we offer the General Electric Low Pressure Forced Warm Air Unit. These units were first introduced to British Columbia in 1930 and those units installed in that year are operating as efficiently today as the day they were first fired.

In the early thirties they were expensive, even by present-day standards. Two new factories have since been built with greatly improved production methods, thus enabling a price range within the reach of all.

When considering an outlay of this nature with all the hazards of hit-and-miss judgment (in many cases influenced by convincing salesmanship) we suggest it is worth while to discuss this outstanding equipment proven beyond all doubt over the past twenty-five years for its amazingly low fuel consumption. The fuel cost reported by owners will average less than \$85.00 a year for the average five-room home, the ratio of economy increasing for larger homes. As an instance, we have in mind a home containing 33,000 cubic feet with two General Electric units zone controlled, costing \$175.00 annually to heat. The same efficiency is found in the General Electric Hot Water Boilers for those heating with water.

Without obligation, we will be pleased to send a competent representative to discuss this equipment further and to estimate the cost of an installation. Ask for heating division.

Easiest, Fastest way to your MOST NATURAL WAVE - Self-Timing Toni

EASIEST—no guesswork with 15-MINUTE waving lotions!

FASTEST with instant neutralizing!

TIMED SO RIGHT—WAVES CAN'T GO WRONG!

15-minute Waving Lotions! No test curls, no continuous clock checking, no guesswork with Self-Timing Toni. So fast, so sure—in just 15 minutes waving action is complete.

Instant Neutralizing! Self-Timing Toni gives fastest, complete neutralizing—thanks to Toni's exclusive Permaflox. There's no waiting...no timing.

Less Care than Naturally Curly Hair! Lanolin-enriched Toni leaves your hair silkier, livelier, so manageable it will need less setting, less fussing than naturally curly hair.

"TONI HOME PERMANENTS SAVE ME MONEY"
"My last seven permanents have been Tonis, and I figure they've saved me enough to buy my silk stockings for two years!"

MORE WOMEN CHOOSE TONI THAN ANY OTHER PERMANENT

3 TONI'S... ONE JUST RIGHT FOR YOU

REGULAR
Custom-made to give a better-than-ever wave to normal hair. Perfect for most women.

SUPER
Custom-made for hard-to-wave hair, or for a "curlier" permanent.

VERY GENTLE
Custom-made for easy-to-wave hair, or for bleached or color-treated hair.

CBC Offerings Attracting Few Viewers

By ROY PARRETT

The Canadian Broadcasting Corporation's offerings are falling on deaf ears in Victoria. This is conclusively proved by the television survey recently conducted by The Daily Colonist and members of the Technicians' Association here.

The CBC's television station in Vancouver rates only 9 per cent of local viewers, the poll shows.

Almost all Victoria TV fans indicated a preference for United States television stations and programs.

The survey also indicates that viewers here are prepared to go to considerable trouble to receive American stations, even if the expense of a long roof-top aerial is involved.

Most Victoria homes have 20 or 30-foot aerials, the survey shows, although there are a large number of 40-foot and a few 50-foot aerials, too.

The CBC's Vancouver station, being the strongest received here, can be picked up on indoor aerials in many parts of Greater Victoria.

But its programs lag in popularity. Only two CBC-produced shows received any votes in the favorite program poll.

CBC radio doesn't fare any better here. Ratings for the CBC radio are even lower than the television ratings.

CBC radio has so few listeners here that survey companies have dropped CBC outlets from their month-by-month listener tabulations.

In other parts of Canada, the CBC does no better. Only five per cent of Canadians who own radios listen to CBC offerings, recent tabulations show.

Audience polls also show that where radio or television fans have a choice, it is not the CBC they choose. Two out of three Canadian TV sets are tuned to American stations, in spite of the CBC's television monopoly.

CBC operations are costing a lot—about \$37,000,000 this year—more than the government spends on its general health program. But it is going to cost a lot more.

Expenditures for the CBC are expected to rise more than \$50,000,000 a year, if present expansion plans are carried out.

Hippopotamus Baby Surprise

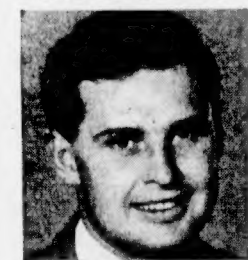

NEW YORK (AP) — The Bronx zoo has a new arrival—a baby hippopotamus that tips the scales at 40 pounds. A hippo born in captivity is a rare event.

Rose, the mother, had been expected to give birth in May, but nothing happened. Scientists doubted that she was pregnant.

With hippos it's kind of hard to tell.

AUCKLAND, N.Z. (CP) — New Zealand will have a unique kiln-drying plant for timber at a big new sawmill at Kawerau, in the North Island. The kilns will use natural dry steam from an underground bore. The bore has been discharging steam at the rate of 8½ tons an hour for the last year. Further boring is under way to locate steam supplies for other operations at the mills.

Announcement

MR. LLOYD NORGAAARD
Driver-Salesman

We are pleased to announce we have now a pick-up and delivery service for your added convenience.

Mr. Norgaard has been appointed as driver-salesman and a phone call to 2-5314 will bring him to your door within a few minutes. Of course if your call is received by 10 in the morning your dry cleaning and laundry will always be returned to you by 5 the same afternoon.

Winter Feed Lack May Force Livestock Sale

OTTAWA (CP) — Central Canada's worst drought since 1914 may force farmers to sell livestock for lack of winter feed, an agriculture department official said Monday. The official estimated drought loss so far this summer in Ontario and Quebec is at least \$85,000,000.

This was broken down into \$24,000,000 loss in oats, \$12,000,000 in hay, \$5,000,000 in corn and \$44,000,000 in lost revenue from pasture rent.

In addition to these losses affecting approximately 200,000 farms dependent wholly or partially on milk or beef cattle, 80,000 cash-crop farms also are being hard hit by drought losses.

The official said he could not yet estimate losses to Canada's tobacco crop worth \$58,000,000 last year. But only the 10 per cent of tobacco farmers who use irrigation would escape drought loss. Other crops hit are tomatoes,

worth \$3,000,000 last year; bucking corn, \$29,000,000, and sugar beets, \$5,000,000.

MAY SELL STOCK
Winter feed loss may force many farmers to sell part of their stock, the official said.

In previous drought years, rough silage—mainly hay and corn—was brought in from other parts of central Canada, but this year's drought is so widespread there is no place from which it can be obtained, economically.

It cannot be imported from United States border points because they, too, have the same problem, the official said, and the Maritimes annual yield is only enough to meet needs in the East.

Scenery and the Long View

ASIDE from the conservationist and professional planner, not too many individuals are looking ahead these days to what may obtain even 50 years from now. The pressure of the times is the excuse for that, even if procrastination did not come so easily to the human intellect as it does. But the conservationists can point to some reliable predictions insofar as natural surroundings are concerned. Thus, when the big forests are gone there will be less rainfall; rivers uncontrolled by man will know winter flood and summer drought. Ores can be extracted from the ground once, and leave nothing but a hole behind them. Agriculture is dependent upon soil, and Vancouver Island as a whole has relatively little of it save in a few isolated valleys.

It is true that in principle the forest-management system is designed to keep the forests from being stripped clear. In its working out, however, through 100-year cutting cycles the centuries-old primary stands of softwoods will disappear; while in their place after a level century may be regrowth in varying stages of maturity. The "big tree" will have disappeared, except as a lingering monument in national and provincial parks. Such at least say some of the more thoughtful of the conservationists. If they are correct, they are also tracing the steady decline of precipitation, because these two things go together.

With minerals, coal and metal ores and deposits the process is visible; take them once and they are then exhausted. Only a major upheaval of the crust of this planet—which would take all life with it

into the bargain—could replace in the same terrain the ores that have been extracted and used.

That leaves the land and the water. The land resolves itself into tillable or untillable classifications, and there is on Vancouver Island not much of the former. So that regrowth timber and a little agriculture might be the future measure of the Island economically were it not for its fisheries, its scenery and such industrialization as may take place in the next 100 years.

British Columbia has learned how to build up its fisheries—through conservation. The landed catch of all types of commercial fish a century hence will be higher, the same or less than it is today, depending upon how successfully control and natural restocking have been carried out. Industrialization is largely unpredictable, although as a general rule it follows the population curve upward with the years.

When it all has been said, Vancouver Island a century hence may find that its chief importance rests in its scenery, or such of it as may have been preserved in its natural state meanwhile. The conservationists have a viewpoint which cannot be easily thrust aside. They are looking ahead, not to what must but to what could well be. In that day Vancouver Islanders may be very grateful indeed for the incomparable lake-and-mountain region which occupies its central region. If its natural assets are preserved, its scenery could be a compelling attraction for centuries to come. Nor is there any need for guesswork about that.

It Is Attitude That Counts

IN discussion of pension matters for war veterans an opposition member of Parliament remarked that there is hesitancy on the part of the pension commission to give applicants the benefit of the doubt. Herein lies much of the grievance in connection with the benefits given to ex-servicemen; an official attitude that seems to look with suspicion on every request, as though fearful something was being put over. In respect of pensions particularly authority leans over backwards to avoid the charge of generosity, and this in consequence easily leads to unfairness. The presumption that when there is doubt the scales should be weighted against the applicant is a poor premise.

On the whole federal legislation for ex-servicemen is on a broad and varied plane, and it compares favorably with that of other countries. So often it appears however that veterans' organizations have to dig concessions out as though from a stone, and that only representations repeated year after year bring any results. There is a grudging air about the granting

of some requests which implies these are allowed only when at last they cannot any longer be decently refused. The long struggle to have the burnt-out pension raised to respectable levels is one notable example of this.

Pensions and the like cannot be given out high, wide and handsome; that is true enough. It would be better nevertheless to err on the side of generosity rather than to deprive a claimant of what might be a legitimate appeal. Many pensions applications are borderline in the sense that some medical factors are difficult to prove, and the before-and-after enlistment effect of an ailment is not always too clear. Attitude is the important thing, a greater willingness on the part of authorities to assume the good faith of all applicants and when there is any doubt to give the veteran the benefit. The nation would not be harmed even if some individuals got what they didn't deserve; better that than the hopelessness that envelops a worthy veteran who cannot prove his case to the satisfaction of over-pedantic examiners.

Corporate Directorships

LEAVING personalities aside, there is a good reason why no person who is highly placed on the books of a commercial venture should be a member of a government in office. For one thing, a member of a cabinet is acquainted with the main lines of the national budget before it is brought down. That cannot be otherwise, because a fiscal program must pass the cabinet before it can reach the House. To have this knowledge by virtue of being a cabinet minister and not to make use of it in one's own business would certainly be the test of a completely upright individual. No doubt there are such individuals. On the other hand as an issue of policy it is not wisdom on the part of the nation, or Parliament or a government to place any individual in such a divided position.

In a concrete fashion the rules of Parliament are directly against it. The principle that no one doing business with a government should be part of an admin-

istration, or even part of the assembly which controls it, has been long established in Canada. Not only in federal circles but also in the 10 Provinces this rule has been invoked on a number of occasions; and it stands for something that the electors themselves have always insisted upon. There is no good reason why at this late date the federal Parliament should be expected to depart from the established custom, a mutually-protective one.

Recent events at Ottawa did not turn on any information that was contained in a federal budget, and there can be no strictures on that score. They did, however, concern the anomalous position into which an individual can get if otherwise he breaks with established custom. If what one learns as cabinet minister must not be used to private advantage, does it follow that confidential information privately gained can be used politically? It does not. Any attempt to do this must betray some confidence, and that betrayal will always meet with public objection.

Interpreting the News

Asia Is the Next Problem

By J. M. ROBERTS
Associated Press News Analyst

IF the United States can negotiate the release of all or most of the Americans now held in Red China then it is quite possible for the two nations to move on to negotiation of broader matters.

The prospect also has been growing that Red China, confronted by the sweetness and light campaign emanating from world Communist headquarters in Moscow, would have to release 51 Americans, and other foreigners as well, before Peiping can get on the new party line.

The background of arrangements for American-Chinese talks at Geneva, at a higher level than heretofore, goes back several weeks. The United States has had in mind all along that the Chinese Reds were trying to see if anything of interest to them developed at Geneva. Nothing did.

The State Department announcement that Alexei Johnson, ambassador to Czechoslovakia, would meet a Chinese representative in Geneva was extremely conservative. It did not

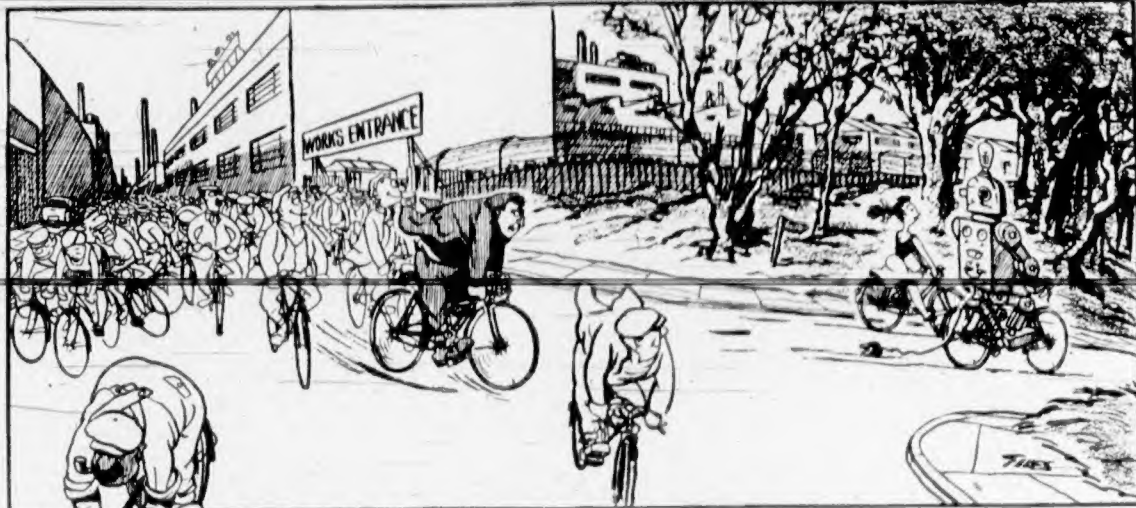

exclude talks about other things than the prisoners, but played down the prospects.

As a matter of fact, however, this cannot be anything except a major American move to get the ball rolling toward a situation in the Far East comparable to that which now obtains in Europe because of the Geneva conference.

To over simplify, that is to halt progress toward war even if nothing concrete can be done immediately about peace.

The United States is still insisting that nothing detrimental to Nationalist China will be done at conferences where Chiang Kai-shek is not represented.

But if enough good will can be generated through a deal on the prisoners, it seems reasonable to believe that exploratory talks on other subjects, such as a Formosan cease fire, could begin with Chiang only in the background, as Chancellor Adenauer was in the background during the Big Four discussion on Germany.

"Doing me out of overtime's one thing—riding home with me Popsy's another."

—London Daily Express

Thinking Aloud Gerald Waring

"... of shoes—and ships—and sailing wax—of cabbages and kings."

By TOM TAYLOR

THAT was a most surprising story last week about the RN sailor who socked the admiral, and in full view of the ship's company at that. Indeed only one other could have butted it—if it had been the admiral who socked the sailor.

I need not emphasize that it is extremely bad form for a matelot to sock an admiral and not at all a very wise thing to do. The odds are distinctly against getting away with it. You will appreciate therefore how it was that this incident stunned the ship, practically bringing the engines to a full stop.

Myself in this instance I incline towards sympathy with the admiral; if only because he could not hit back. It is taboo for a soldier, sailor or airman to strike his superior officer, but it is altogether blue Moses should the roles be reversed.

You recall perhaps the air commodore during the Battle of Britain when a captured Nazi bomber pilot spat straight in his face. He forgot he was an officer and a gentleman, remembering only he was a man, and knocked the Nazi down.

Result? Cashiered, dismissed the service.

And this was for hitting an enemy! You can readily imagine therefore the ghastly risk an officer runs should he sock one of his own men.

(There are occasions, too, I surmise, when an admiral might feel as much like taking a pot shot at a far as vice versa.)

True enough, the admiral in question did not just stand and take it; protocol does not demand quite that much inertia. He tried to defend himself but he was of Nelsonian build and his attacker was a six-footer. The sailor was picking his man rather than a bit unfairly.

(I can think of at least one Canadian admiral whose build would deter even the most reckless matelot.)

For his part it is said that the rebellious RN sailor was fed up with inspections, apropos of which some sympathy inclines to him also.

One wonders sometimes if senior officers quite appreciate what inspections mean to the lowly; the preliminary once-overs by intermediaries that go on and on so that men may be forced to stand on parade literally for hours before the VIP himself appears.

I confess to one disconcerting factor about the incident in question, however; the culprit's name is McSparran. This I find hard to believe since it is known the wide world over that Scotsmen are the meekest and most inoffensive of men.

Even when Gordie Hamilton, he of the bandy legs and the Scots Fusiliers, punched Major-General Hannay right on the nose he was not breaking the rules, for the general was in mufti and Gordie did not recognize him.

That makes a deal of difference, one presumes.

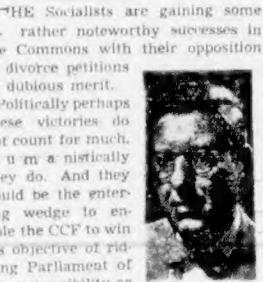

I can only conclude that McSparran felt the lack of a sporrán so much he had to make a demonstration of some kind.

At last however, and this is much in his favor as doubtless he will come to realize, if the RN sailor chose the wrong man to hit he chose wisely the century in which to live. I understand that at the moment he is probably lying on a couch being interviewed by a psychiatrist; a while back he'd have been hanging from the yardarm by this time.

And yet I suppose that sailors everywhere are chortling at the admiral's discomfiture, and without prejudice to admirals in general. Only had it been a sergeant-major who had been socked, perhaps, might there have been more glee expressed. Always has the man at the bottom dreamed like Walter Mitty of the day when he would haul off and lay flat the man at the top.

A sentiment held strongly also in civilian life, may I add. The admiral in this case is only a symbol.

Reports from Ottawa

THE Socialists are gaining some rather noteworthy successes in the Commons with their opposition to divorce petitions of dubious merit. Politically perhaps these victories do not count for much. If it is a tactical victory they do. And they could be the entering wedge to enable the CCF to win its objective of riding Parliament of its responsibility as a divorce court for the people of Quebec and Newfoundland.

This session the Senate divorce committee approved 407 divorce bills—one from Newfoundland and the rest from Quebec. This set a new record, well above the previous high of 378 last year. Due to the efforts of the CCF, and particularly the Socialist MP for Mackenzie, Sask., Alexander M. Nicholson, the Commons has killed two Quebec divorce bills and may reject one or two more before the session ends.

These are contested cases in which the evidence is unconvincing, or looks fishy or fabricated. As Nicholson told me, CCF members are trying to block divorces when the person seeking the divorce—the husband in all cases so far—seems to be using trumped up evidence to do injustice to the spouse and children.

How the CCF, with only 24 of the 265 seats in the Commons, can swing a majority against a particular divorce bill is an interesting political phenomenon. For example, on Tuesday when the House adopted a CCF motion to give the divorce bill of Joseph Delorme the six-month hoist, 36 Liberals opposed the CCF move. But the Socialists, Conservatives, Socreds and a couple of Quebec Liberals formed a majority of 43 to carry the motion.

Contract Let for Drive-In Restaurant

Building contract for Paul Arsens' big drive-in restaurant on Douglas, between Chatham and Discovery, was let to Sutton and Sons, contractors, yesterday, for \$105,000. But total cost of the restaurant, which will bake and buy for two other restaurants in the Arsens city chain, will be \$200,000.

Completion date is set "before Christmas." Ready-cooked meals will be packaged for drive-in customers to take away. Construction started yesterday. Architects are Sharp & Thompson, Berwick, Pratt and Charles E. Craig.

Education, Not Legislation

Premier Bennett Is Opposed To Safety Belt Compulsion

Premier W. A. C. Bennett is car owners to install safety belts in their vehicles.

"I'm not in favor of compulsion. It must come by education," the premier, who last week had his car equipped with the belts, said yesterday.

He added it would be impossible to enforce a law making it compulsory for people to wear the belts, even if they were installed in the car.

"The belts work very well," said Mr. Bennett. "I think you will see them stressed more and more over the continent." He hopes to gain support for the belts from unions, automobile associations, and safety councils.

Rescued Yacht Off for Seattle

The Alaskan yacht Blue Boy is heading for Seattle after being nearly capsized in stormy waters off Trial Island Saturday evening.

The 38-foot vessel was caught in a fast-flowing eddy and winds gusting to 40 miles per hour. At 10:30 p.m. she sent out a distress signal. Her owner, skipper Richard A. Cooley of Juneau, Alaska, was unable to turn the cruiser in the maelstrom of wind and tide.

A helicopter from the U.S. Coast Guard station at Port Angeles was first to reach the Blue Boy, and called the Island Mariner of Island Tug and Barge Ltd., inbound to Victoria.

OH, ON WATER
The 10-foot tug, with Capt. Vern Vosper, moved close to the yacht, pumped oil on the water to smooth the chop, and took her alongside.

The yacht was brought by the tug to the small craft jetty in inner harbor. On board Blue Boy besides Mr. Cooley were his wife and Mr. and Mrs. Richard Holmgren, all of Juneau.

The distress call was also answered by a pilot boat of B.C. Pilotage and an RCN harbor craft from Esquimalt.

A red pine tree will grow into a good, straight telephone pole in about 35 years.

Divorced Fathers Suffer Unemployment Injustice

OTTAWA (CPI)—Canada is seeking an exchange of information with the United Kingdom regarding unemployment insurance benefits, acting Labor Minister Martin said Monday.

He told the Commons an official of the Unemployment Insurance Commission now is in England change of information.

Mr. Martin was replying to Harold E. Winch (CCF—Vancouver East) who said the commission regards a divorced father with dependent children as a single person if the children live in the United Kingdom.

However, he said, the commis-

sion considers the children as dependents if they live in the United States. That was an unfair situation, persons.

NEW 1955 B-A GASOLINES Give Your Engine...

more complete protection!

The B-A PLEDGE

WE AT B-A MAKE THIS PROMISE TO THE MOTORING PUBLIC: WE WILL NOT PERMIT A SINGLE COMPETITOR—NO, NOT A SINGLE ONE—TO OFFER GASOLINES SUPERIOR TO OUR NEW 1955 B-A 88 AND 98.

IT IS OUR SINCERE BELIEF THAT NEW 1955 B-A 88 AND 98 ARE THE FINEST GASOLINES IN CANADA TODAY, AND NO MATTER WHAT OTHERS DO OR SAY WE WILL KEEP THEM THE FINEST—IN POWER, IN PERFORMANCE, IN ENGINE PROTECTION.

IT IS ALSO OUR BELIEF THAT YOU CAN'T BUY A BETTER MOTOR OIL THAN OUR OWN FEEBLESS HEAVY DUTY MOTOR OIL. THIS IS NOT A BOAST, NOT A CLAIM, IT IS A PLEDGE TO YOU, THE CANADIAN MOTORIST—A PLEDGE BACKED BY THE RESOURCES—AND THE INTEGRITY—OF THE BRITISH AMERICAN OIL COMPANY LIMITED.

W. H. H. H.
PRESIDENT

New clean burning B-A Gasolines protect every part of the engine they touch against harmful deposits that cause engine wear. Look at these pistons! Clean Piston "A" is from an engine using NEW 1955 B-A Gasolines. Dirty Piston "B" is from an engine using "dirty-burning tail-end" of gasoline—the part that is refined out by B-A. Only NEW 1955 B-A Gasolines burn clean... give you full octane power that really works for you mile after mile—with less engine wear. Make that next tankful of gasoline NEW clean burning 1955 B-A 88 or 98 Gasoline. You'll be glad you did!

Finest Gasolines—Bar None!

Lansdowne will be dark tonight and the final seven days of the current meeting will start Wednesday.

TINGLEWOOD, Calif. (AP)—Alfred G. Vanderbilt's Social Outcast, making his second appearance at Hollywood Park, came from the back to capture the \$110,500 Sunbeam Handicap Saturday in a stretch battle with Rejected and Aldon. Jockey Eric Guerin, with the heavy ride aboard the Vanderbilt filly, held off the King Ranch's Rejected in the battle for the win as the track record was broken for the tough mile and five-eighths distance.

The time was 2:40.5, a fifth of a second under the track mark set in 1946 by the Woolford Farm's Historian.

Tumilty Top Angler In Solarium Derby

Hundreds of anglers who crowded Saanich Inlet Sunday for the annual Solarium Derby found weather conditions good and fishing a bit tough. However, three anglers managed to boat button-sized salmon and quite a number latched on to the small springs and cohes which made up the bulk of the catch.

Hugh Tumilty, 3472 Bethune, weighed in the largest salmon, a 22-pound, 15-ounce spring which was big enough by only two ounces to deprive the Berry family of successive victories.

Leaders Trim Blue Bombers

Fairbanks racked up its 11th straight victory in diaper lacrosse league play yesterday by trouncing last-place Blue Bombers, 11-2, at Stevenson park.

Saanich Tigers climbed into a second-place tie in the opening game with a 9-4 victory over Saanich Greens.

Phil Wade was the big gun for Fairbanks, netting seven of his team's goals.

Scorers and line-ups for Wednesday night's all-star game at Memorial Arena follow:

HOW THEY STAND			
NATIONAL LEAGUE	W	L	Pct.
Old Fellows	8	2	.800
Rotary	4	4	.500
North Kiwanis	2	6	.250
Sunday's scores: Old Fellows 12, North Kiwanis 10.			
Next game, Wednesday, Old Fellows vs. North Kiwanis, 8:30, Little League park.			
AMERICAN LEAGUE	W	L	Pct.
Kiwanoes	10	0	1.000
Oak Bay Kiwanis	4	4	.500
Lions	2	6	.250
Elks	2	6	.250
Sunday's scores: Lions 14, Elks 12.			
Next game, tonight, Oak Bay Kiwanis vs. Elks, 8:30, Little League park.			

Lions Down Cubs, 2-1; Win Second-Half Crown

Equimault Lions captured the second-half Equimault Little League championship Sunday by defeating Merchant Cubs, 2-1, at Bullen park.

Lions now meet Yarrow Dodgers, first-half winners, in a best-of-three series to decide the league title. First game of the finals is scheduled for Bullen park tonight at 6:30.

Winning pitcher Doug Bowker drove in the tie-breaking run for Lions with a double in the bottom of the final inning. Bowker struck out seven and walked six in besting Cubs' Barry Scott, who set 15 batters down on strikes in a losing effort.

PIRATES SECOND
Naden Pirates edged out the Dodgers for second place as they nipped the Dodgers, 8-7, in the opening Equimault League game of the day. Pirates rallied for three runs in the final inning, scoring the winning tally when Dan But drew a base on balls to force in Bob Watson.

Meanwhile, hitters had a field day in Sunday's doubleheader at Little League park, chasing a total of 30 runs across the plate.

In the American League game, Lions defeated Elks, 16-12, while Old Fellows dropped North Kiwanis, 12-10, in the National League.

Elks came close to saving the game in the fifth inning when they drove in 10 runs to bring the score to 14-12, but Lions scored a pair of insurance runs in the bottom of the inning.

In Saturday's Little League action, Kiwanis ran their American League win streak to 10 games by defeating Oak Bay Kiwanis, 7-2, while Gyros won out, 8-3, over Rotary in the

Olson Joins Cougars

Victoria Cougars filled the spot vacated by Billy Reay when they signed Eddie Olson, veteran of nine American Hockey League seasons, as playing coach for the 1955-56 Western Hockey League campaign. Olson, a member of Cleveland Barons for the past four seasons, is shown signing his contract Sunday while Cougar general manager Fred Hutchinson smiles his approval.

Henri Changes His Mind After Skipping Cup Team

MONTREAL (CP)—Henri Rochon, who skipped the winnow of the British West Indies-Canada Davis Cup tie, came back into the fold Monday with official blessing.

The peppery, 32-year-old tennis veteran was miffed when he wasn't named to a singles berth in Sunday's play, with the second-round tie already collared by his Canadian teammates. So wily Henri stayed home.

It was the first time Henri hadn't seen action after being selected for the team. He was named to teams from 1946 to 1953, inclusive, and over that stretch he won four of the 14 singles matches in which he played.

Now, that everybody's ruffled feelings have been smoothed out, Henri and the others who swept the tie against the West Indies are ready for the highly favored Australians. The Aussies and Canadians open the North American zone final Friday.

The career Canadian quartet is made up of Bob Beard of Sherbrooke, Lorne Main and Don Fontana of Toronto, and Rochon.

HAS BEATEN FONTANA
Rochon was No. 3 selection on the team and that was one reason he thought he should at least have

England 365 Runs Back With Eight Wickets Left

LEEDS, England (Reuters)—England, which faced the task of scoring 481 runs in eight hours for victory, was still 365 runs behind with eight second-innings wickets standing at the close of the fourth day of the fourth cricket test match against South Africa today. The match ends today.

South Africa made 200 in its second innings before being all out yesterday afternoon. England, which leads 2-1 up in the series of five tests, was 115 for two in the second knock at the close. England had led by 26 runs on first innings, scoring 191 against South Africa's 171.

An unbeaten innings of 116 by Russell Endean set the South Africans on the road to their big total. He defied the England attack for four hours and hit 16 fours in becoming the second-

ture-maker of the innings. Jackie McGlew made 133 Saturday. Johnny Wardle, left-arm spinner, bowled steadily to finish with the best figures of four wickets for 100 runs.

England lost Frank Lawson with only three scored. Tom Graveney went at 59 but Peter May, 47 not out, and Doug Insole, 30 not out, improved England's chances of surviving.

Only once in the history of Test cricket has a team won after being set to make 400 or more. That was here in 1948 when Australia made 404 for three to beat England by seven wickets.

Only once in the history of Test cricket has a team won after being set to make 400 or more. That was here in 1948 when Australia made 404 for three to beat England by seven wickets.

AHL Scoring Champion Signed As Playing Coach of Cougars

Eddie Olson, 33-year-old veteran of nine American Hockey League seasons, is the new playing-coach of the Victoria Cougars.

Announcement was made Sunday night by Fred Hutchinson, general manager of the Victoria club, after Olson had flown to the city from his St. Louis

home. The post announcement following the contract signing.

To get Olson, the Cougars gave the Cleveland Barons the right to select one of three Victoria-owned players. The names of the trio were not divulged.

FIFTH COACH
Olson succeeds Billy Reay, who accepted an offer to act as manager-coach of the reactivated Seattle team, and is the fifth coach of the modern Cougars. Before Reay there were Eddie Wares, Roger Leger and Eddie Dorohoy.

Although old as hockey players go, Olson's best three seasons have been his last three. In his last three seasons, he has scored 113 goals and won the scoring championship twice, including last season. His point totals of 86, 94 and 88 for the past three seasons are the best of his professional career. He

has been selected to the league all-star team and in the 1952-53 season won the most valuable player award.

Olson has spent the last five seasons with Cleveland after four years with St. Louis. In that span the husky forward has played in 603 out of a possible 630 games and averaged 24 goals and 61 points a season.

although he played a full season at St. Louis as a defenceman, which cut his offensive production to six goals and 32 assists.

Normally a left winger, Olson says he will play where he is needed most and may even wind up as a defenceman. Last season he saw action on defence and at all forward positions while playing the complete schedule of 70 games.

PRaised BY PATRICK
Olson comes to the Cougars with the full confidence of Lynn Patrick, general manager of the working agreement with the Victoria club.

"Take him," Patrick told Hutchinson when told the Cougars had a chance to sign the Cleveland veteran. "He's a real good player and I believe he will make you a fine coach."

Olson will start his job on September 12, when he goes to the Boston training camp at Hershey to take a look at the talent which may be available to the Cougars. He will arrive in Victoria about 10 days later.

Olson will start his job on September 12, when he goes to the Boston training camp at Hershey to take a look at the talent which may be available to the Cougars. He will arrive in Victoria about 10 days later.

In time to take over Cougar practices, tentatively scheduled to open in Seattle on or about September 21.

PAN-AMERICAN SWIMMERS FOUGHT ALTITUDE

At the recent Pan-American Games many swimming records were broken in spite of the detrimental effects of the altitude. Ac-

Sports College director, many of the top swimmers found that replenishing with tea, lemon and honey was a big help in both work-outs and in competition because it helped them regain energy for continued effort. It is widely used by leading athletes during their relaxing periods as a recovery aid, says Sports College.

Magistrate Favors Year's Suspension

A driver recently released after a 21-day jail term for driving while his ability was impaired by alcohol, yesterday heard a recommendation his licence be suspended for one year.

Earle Fletcher, 3006 Cedar Hill road, was remanded from July 2 for disposition of his licence.

Magistrate Henry Hall told him in Esquimalt court, "I don't think you merit any leniency."

It was Fletcher's second conviction for impaired driving.

Also in Esquimalt court, Patrick J. Patterson, RCN, was fined \$25 for driving without a licence.

Howard Elder, Muir Creek, was fined \$15 for exceeding 30 miles an hour.

Mixture of beer and gin got Bernard E. Trimble, 2213 Windsor, into hot water.

He pleaded guilty to an impaired driving charge and was fined \$250 in city police court yesterday. He is restricted to business driving of his car for a year.

Police found Trimble asleep in his car at 7 a.m. Sunday on Rockland, between Vancouver and Quadra, when they answered a fire call. The fire alarm was an informant's method of summoning police, they think.

Trimble's motor was running and the radiator boiling. Police said he told them later that he had been drinking beer and gin.

Desmond McHarey of Sidney was fined \$100 and \$22.50 costs for "being in care of an automobile" while his ability was impaired by alcohol. He was charged at Sidney.

He pleaded not guilty.

Quai Quan, Finsgar street, was fined \$50 on two charges of failing to file an income tax return. Genty Singh, David street, was fined \$25 on one similar charge. Both pleaded guilty.

Maurice M. Marsden, no fixed address, being held in police custody for sentence on one charge, was returned to court yesterday on a second charge.

He pleaded not guilty to obtaining money by means of a worthless \$10 cheque, and was remanded until Friday for trial. He will also be sentenced then for resisting a process server.

Murder a Day In New York

NEW YORK (AP)—Every hour during the first six months of 1955, more than 11 major crimes occurred in New York City. There was nearly one murder every day, too, and each 24-hour period brought 23 robbery and assault cases. But the figures represent a decrease of 13 per cent in major crime from the same period last year.

HOW MUCH IS A PIECE OF CHALK WORTH?

Usually not very much, but on September 9, 1954, chalk took on a new value. Canada awoke that morning with a question on its lips... "How is she doing?" And out in Lake Ontario a little whodog gave the country its answer. Stroke by stroke she was nearing Toronto, encouraged by the messages Gus Ryder scribbled on his blackboard. Yes, a few pieces of chalk became priceless that morning as Gus Ryder "talked" Marilyn Bell across those agonizing miles of water. And, behind the little Toronto girl there was a team that trained, inspired and encouraged her to victory... a team led by a man who dedicated his life to swimming and life-saving because, on two occasions, he himself nearly drowned! Teamwork is vital for success in business too, and we at Imperial Bank work as a team to give you banking service of the highest order. If you are not already a customer, call in at any branch and enquire about the many services we can offer you. Imperial Bank has branches coast to coast, serving business, industry, and the people of Canada.

He'd Join In---But It's Too Cold

"You cup your hand to get hold of the water. That drives you along," said burly Bert Thomas when he visited The Daily Colonist's free swim classes at Happyland, Elk lake, yesterday, to talk to instructor

Mrs. Marge Nasmith's small charges. Then, because he knew they shouldn't stay out of the water for fear of a chill, he sent them scurrying. "I'd been massed, but it's too cold," he laughed.

Bennett Thankful For Free Press

Even the most biased press is not always biased. Premier W. A. C. Bennett admitted with a grin yesterday in reply to a question as to whether he had seen an editorial in a Vancouver newspaper praising his government.

"Every day we give thanks for a free press," he told reporters. "We must have a free press to criticize a government and a government not afraid of criticizing the press."

He added there was no other place on the continent where a government discussed so much with the press as in B.C. today.

Summer School Feature

Veteran Entertainer Sings Folk Songs

By BERT BINNY

One of the most interesting and entertaining stage personalities Victoria has seen for some time was stage at Oak Bay junior high school last night.

As part of the 1955 calendar, the summer school of education presented John Jacob Niles in a program of American folk music.

Mr. Niles is a close friend of the well-known Doot Doots.

The artist's instruments, three dulcimers of different keys, were all made by Mr. Niles and all attuned to his voice, of surprisingly high pitch.

The program included love songs, Kentucky nursery rhymes, carols of ancient origin, carols of modern times and

John Jacob Niles, composer as well as exponent of American folk songs, is a man thoroughly versed in his lore and a stage personality of close to 50 years' standing.

He is a native of the "Deep South" from Lexington, Ky. His great-grandfather, grand father and father were all folk singers and his son, John Ed, now 10 years old, already promises to follow.

During Mr. Niles' 48th year in his profession, his debut on the stage occurred in New York in 1907 when at the age of 17, he provided all in one afternoon and all for \$1.25, piano solo accompaniments and songs as a member of a gospel quartet.

"In addition," said Mr. Niles, "I rescued a man who had been severely and fell through a double bass, and also poured cold water on a woman who fainted."

Helicopter Taxis Make Their Bow

Brother Flees Brides

SYDNEY, Australia (UPI)—Mrs. Jean Fox wanted that her 37-year-old brother, Roy, was not married, so she advertised for a wife for him, she said yesterday.

Now she has 17 prospective brides, but he is missing.

Mrs. Fox, 40, advertised "Wanted: A woman to marry my brother, Roy, 37, who is not married. He has a car and a good job. She received 17 applications."

Her brother, however, left town leaving a message "Don't try to find me."

First passenger vessel to circle North America is HMCS Labrador, which recently made its way through polar seas from Atlantic to Pacific. We're proud that the three specially built landing craft she carried to ferry men and supplies to Arctic shore bases were made of welded aluminum—and that they did the job.

Aluminum is active in the patrol and defense of our coasts, lakes and northern waters. So it is good to know that Canada is the world's second largest aluminum supplier with five producing plants in Quebec and British Columbia.

THERE OUGHTA' BE A LAW

K'D CHINCHIN AND ROCKY RUBBER EGGS STAGED THE BEST TRAIL IN PUGILISTIC HISTORY BEFORE A HANDFUL OF FANS—

WOW! WOTTA FIGHT! QUICK! SIGN 'EM UP FOR A REMATCH!

NEAR NEAR! WE'VE GOT 'EM IN WITH A REMATCH BOSS!

THROW THE DUM OUT! BOO!

BRACK!

THEY'RE HOLLERING FOR THEIR MONEY BACK! WHAT'LL WE DO?

LEAVE TOWN!

Jack Carson Finds: Everyone's a Critic— It Hurts But It Helps

By JACK CARSON
HOLLYWOOD CITY, July 25.—Six months to find out if it's worth it. Making a movie is like firing a shot that hits its own weight. It takes in countless acts and scripts. It takes in countless acts and scripts. It takes in countless acts and scripts.

Fishing Boundary Set Farther Out

In order to assure an adequate escapement of sockeye for spawning purposes, the commercial fishing boundary at the head of Rivers inlet was relocated Sunday by the department of fisheries.

HOW to get a Friendly Loan at NIAGARA FINANCE

Drop in to see your friendly Niagara Loan adviser. He'll make it easy for you to get the Friendly Loan that suits you best. Here are important facts for you about Niagara Loans.

Who can get a Niagara Friendly Loan?—Anyone with a reputation for honesty and the ability to repay.

How much can be borrowed from Niagara?—Up to \$1500; sometimes more.

How quickly can I get money?—Sometimes in 20 minutes; within 24 hours for most loans.

How long can I take to repay?—In the table below, there are just a few of many plans. They will give you some idea of time periods allowed for different amounts... from 4 to 24 months. And for all people who have uneven income during the year, such as farmers and schoolteachers, special payment schedules may be arranged on loans above \$500.

Are all loan charges the same?—Up to \$500 generally, yes; but remember, at Niagara, you get life insurance at no extra cost.

Life insurance on loans worthwhile?—Yes, here is a real family peace-of-mind feature. At no extra cost to you, loans of \$1500 or less, are life-insured. Be sure you get this protection when you borrow.

Does a friend have to "back" my loan?—No, seldom do borrowers prefer an endorsed loan. And bankable security, of course is not needed.

How many ways of borrowing are there?—You can use any of these four Niagara Loan plans. 1. On cars, trucks, etc.; only owner signs. 2. Husband-and-wife, on furnishings. 3. On business equipment. 4. On farm stock and equipment.

Can I have a private interview?—Yes, your interview at Niagara will be private, courteous, and friendly.

Why do people borrow money?—A few reasons are to consolidate a group of small debts; to reduce large payments for car and truck repairs; to meet emergencies; to repair or modernize homes; to enlarge a business; for seed, stock, fertilizer for farms; and to take advantage of low prices, when cash is paid.

Do many people borrow?—Yes, in Canada, 1 family in 4 borrow each year.

Gaglardi at Scene of Collapse

Mission Traffic Too Light, Province Plans No Bridge

MISSION CITY, B.C. (CP)—Highways Minister Gaglardi told an emergency meeting here Monday night the government will not build a bridge linking the two

river to replace the CPR span which collapsed Sunday.

The decision curbed hopes in Mission City and Matsqui that the collapse of a pier and span of the 2,500-ft. bridge linking the two villages would prompt the government to consider erecting a new structure.

Mr. Gaglardi, here to inspect the damaged rail and motor bridge, told councillors, village commissioners and board of trade members from Mission City, Matsqui, Abbotsford and Sumas, Wash., that the present flow of traffic in the area does not warrant a new span.

The minister said no effort will be spared to provide transportation between the north and south shores of the Fraser. And he said he was now trying to obtain landing barges to ferry trucks carrying produce to the river to the canneries in Mission City.

"I assure you," he told the meeting, "the farmer will suffer no less as far as perishable foods are concerned. They are of prime consideration."

Mr. Gaglardi also said he had been assured the CPR would restore service over the old bridge "in a couple of months."

Swept away by the swollen river, the 150-foot span and a concrete pier at the southern end of the

Trombonists

All Horn In

ROGENSEBURG, West Germany (Reuters)—Trombonists from all over Bavaria recently closed their convention here with a recital by 3,000 trombones in a public square.

Fleeing Russian Kills Self

LINZ, Austria (Reuters)—A Russian non-com trying to lead six of his men across the Iron Curtain shot and killed himself Monday in sight of armed Soviet soldiers pursuing him.

The remaining six were surrounded in a nearby woods. Eye-witnesses said the Russian troops systematically raked the whole area with submachine gun fire until the six, all between 16 and 19 years old, gave themselves up.

The episode ended a three-day manhunt by several hundred Russian troops.

Monday the non-com was surrounded in a woods near Gallenkirchen. A Soviet patrol fired and wounded him. Then he stood up in front of his pursuers and shot himself through the head with his pistol.

ACHING BACK?

Why suffer with backache or painful joints? Many find quick relief by taking Dr. Chase's Kidney-Liver Pills. This proven remedy treats two conditions at once, contains special remedial ingredients for both kidney and liver disorders which often cause backache. Dr. Chase's name you can depend on.

DR. CHASE'S KIDNEY-LIVER PILLS

You're braver than you think

"Would I be a coward in a crisis? Most of us secretly fear we would. But this is not so."

August Reader's Digest tells you how fear itself helps you face danger... and unlocks the resources of physical endurance, emotional power and spiritual stamina that you unknowingly possess. Get your copy of August Reader's Digest today: 36 articles of lasting interest, including the best from leading magazines and current books, in condensed form.

Gunmen Beat Victim

VANCOUVER (CP)—Two men were charged Monday night in the holdup of a city businessman and holdup of a city businessman and a chase by citizens and police in crowded Vancouver.

Bleeding but defiant, A. Henri Feddersen, 48, assistant manager of White Lunch Ltd., looked down the barrel of a pistol in the hands of a gunman and heard the firing pin click three times as he kicked a sack containing \$5,000 out of his car.

Robert Linwood Spence, 21, and Joseph Raymond Scott, 25, were charged with robbery after appearing in a police line-up.

They were arrested in the vestibule of the B.C. Telephone building on Seymour street. Police said neither was armed.

Planes Seek Missing T-33

WINNIPEG (CP)—Ten aircraft searched without success Monday for a T-33 Silver Star jet training plane missing from the RCAF station at Gimli, 60 miles north of here.

An Otter aircraft from Winnipeg sent out to investigate a reported oil slick on Lake Winnipeg, four miles north of Elk Island, and east of Gimli, was unable to locate the slick.

Let TCP re-power your car's engine on your weekend trip

By neutralizing lead and carbon deposits, Shell Premium Gasoline with TCP* re-powers your engine in 400 miles or less.

Your engine can be delivering power you thought it had lost forever—by the time you get home from your trip.

Before you've used two tankfuls of Shell Premium Gasoline with TCP—you will have re-powered your engine.

That's how quickly "the greatest gasoline development in 31 years"

goes to work. And to get these benefits you don't so much as touch a tool!

As you drive, Shell Premium with TCP automatically neutralizes the increased engine deposits formed by today's "around town" short-trip driving, which cause pre-firing—a major source of power loss.

Continued use of Shell Premium with TCP is essential to halt pre-firing and for you to obtain the full benefits of high octane gasoline. It's the most powerful gasoline your car can use.

*Shell's Trademark for this unique gasoline additive developed by Shell Research. Patent applied for.

Only Shell Premium Gasoline has both TCP and High Octane!

Victoria Again Honors Bert

For his "magnificent swim" strait conqueror Bert Thomas is showing receiving a cheque for \$1,031.25, a token of Victoria's gratitude, from Mayor Claude Harrison. Mrs. Harrison is seen at left and Mrs.

Thomas, right, at civic dinner at Empress hotel last night. Big Bert promised to wear Victoria's gift flag on his boat when he tackles the Canadian National Exhibitions-Lake Ontario competition in September.

Chinese Strength Held Aid To U.S.-Soviet Friendship

GENEVA (AP)—Diplomats speculated today that the United States and the Soviet Union drew closer together at the Geneva Big Four conferences because of the growing strength of Communist China.

It is an open secret that the Russians have been rather surprised and even a bit dismayed by the swift and total victory of the Communist revolution in China. It presents the Russians with the spectacle of a nation of nearly 600,000,000 promising to become a power along the Soviet borders.

At the Geneva conference, the chiefs of government of the United States and the Soviet Union talked face to face. President Eisenhower often spoke directly to the Soviet leaders without the presence of the British and French delegates.

ONLY LIP SERVICE
The U.S. consistently has opposed Red Chinese moves which Washington felt might lead to China's domination of the Pacific. On its part, Moscow has given lip service to the aspirations of its Communist neighbor in the Far East, but little more.

Premier Bulganin insisted here that the U.S.S.R. favored Chinese Communist demands, but his restrained manner implied there would be no direct economic or military support for any Red Chinese adventure in the Formosa strait. He may even have been washing his hands of the whole affair by saying it was a matter for direct talks between the United States and Peiping. The implication was that Red China could not expect Soviet support if it became entangled with the United States on this particular issue.

CHINESE ADVANCE QUICKLY
Western diplomats returning from Peiping have reported Soviet technical experts impressed at the way the Chinese are catching on to the business of industrialization. Furthermore, the Russians are reported to have noted that the Chinese are using new skills to turn their vast manpower into a formidable armed force which needs only nuclear weapons to make it practically invincible.

Many months before the Geneva "summit" conference was conceived, Western diplomats in Moscow were saying they detected growing Russian uneasiness about the Chinese situation.

Such factors may have made it mutually advantageous for the U.S. and the Soviet Union to relax tensions between them while keeping a wary eye on big China, diplomats say.

New Colonist Series

Parents Must Learn To Assert Authority

A return to the lost art of parenthood is the real need today and the new thought in child rearing.

The Daily Colonist will tell the full story in a provocative series of 12 daily articles beginning Thursday. The series, by author Howard Whitman, is based on hundreds of interviews with child psychologists, juvenile court judges, psychiatrists, probation officers, welfare agency officials and parents, themselves.

The basic lesson learned is this: fathers and mothers must learn to reassert their authority. They must learn to be guided by their natural instincts rather than the untested ideas of the so-called experts. They must learn to enforce discipline in the family and use punishment as a beneficial tool.

All this and more is explained in this startling, new series called "Parenthood Without Hokus."

This series is called the welcome obituary of the mistaken notions and theories which child psychologists have foisted off on unsuspecting parents for the last 20 years.

Eisenhower Says:

Reds' Sincerity Faces Acid Test

WASHINGTON (UP)—President Eisenhower said last night that the "acid test" of Russia's newly-professed spirit of co-operation will come at a showdown foreign ministers meeting in Geneva next October.

Mr. Eisenhower also said in a nationwide radio-TV report on last week's Geneva Big Four conference that the momentous meeting produced a "sharpened realization throughout the world that the United States will go to any honorable lengths to attain peace.

But, in firm tones, he made clear that it is up to the Russians to engage in "real conciliation" when the Big Four foreign ministers meet in Geneva next fall.

Mr. Eisenhower said that during the Geneva conference "each side assured the other earnestly and often that it intended to pursue a new spirit of conciliation and co-operation in its contacts with the other."

The president noted that it will be up to the foreign ministers to translate the "generalities" of the Geneva talks into "actual specific agreements."

West Germany's 70-year-old Chancellor Konrad Adenauer announced in Muenchen, Switzerland, yesterday that he will go to Moscow in a personal attempt to hammer out a plan for German reunification before the Big Four foreign ministers meet in Geneva in October.

BERLIN—Soviet Communist party chief Nikita S. Khrushchev said yesterday of the Geneva conference that "both sides won the conviction that neither side wants war."

Bikinis Shock Lord's

LONDON (Reuters)—London had a heat wave with temperatures above 80 degrees and women turned up at stately Lord's cricket ground in their bathing suits.

But, in firm tones, he made clear that it is up to the Russians to engage in "real conciliation" when the Big Four foreign ministers meet in Geneva next fall.

Mr. Eisenhower said that during the Geneva conference "each side assured the other earnestly and often that it intended to pursue a new spirit of conciliation and co-operation in its contacts with the other."

VANCOUVER (CP)—A group of 70 seamen from the 93-man crew of a seized Liberian ship returned here Sunday by land from San Pedro, Calif., after what they described as a "harrowing nightmare" on the high seas.

Penniless but smiling, the men who set out on the steamship Mazatlan almost two months ago for a two-week cruise to Mexico and return, called the ship "jinxed."

On the advertised "luxury cruise" in Acapulco, Mexico 178 passengers boarded the Mazatlan at San Diego, said seaman Fred Norfolk, 25, of Vancouver, in an interview.

The British Columbia sailors signed on the ship at Victoria May 29 after she had been converted into a "luxury" liner by Yarrows Ltd. But the vessel already was known on the Pacific coast as "jinx-ship."

Police Hunt Youths

Victoria's mounting juvenile crime wave erupted again Saturday night when vandals caused \$5,000 damage to nine trucks in a company lot.

Two teen-aged boys are believed responsible for causing the damage in broad daylight, and within sight and sound of Douglas street, in the Heaney Cartage and Storage Ltd. yard on Queen.

They crashed the vehicles into each other, and punctured holes in aluminum truck bodies.

Company president William Heaney told The Daily Colonist last night that it is the most severe blow struck by vandals against the company, which has been plagued for months by minor damage, petty pilfering and gas stealing.

He said keys are left in trucks in the lot for safety purposes, to enable quick removal of equipment in case of fire.

Night-shift mechanics were not on duty at the week-end, and there is no watchman. The lot is fenced on all sides.

The vandals started up the trucks and indulged in a destructive spree.

They collided some vehicles head-on, and sideswiped others.

Grills were broken and fenders ripped and crumpled. Truck bodies were pushed in, and the side of one truck box was ripped off.

An instrument was used to punch holes in the bodies of other vehicles.

Police discovered that two youths were seen running away from the lot early Sunday evening.

Investigations are continuing. Vandals struck again last night for a second time in a week at Mount View high school.

They smashed three windows and entered the building.

Police departments have many cases of malicious damage on file.

Three youths will be sentenced at Saanich court Thursday for smashing down a gate with a car and damaging three houses in an outbreak last week at Killarney Lake, Saanich.

They broke windows with beer bottles, smashed dishes and fillings, holed a canoe, destroyed drapes, bedding and furniture.

On June 7, a railway car was entered at the Canadian National Railway yard at Johnson street and hundreds of dollars worth of goods ruined.

C. E. Rivett-Carnac, RCMP assistant commissioner, told a magistrates' convention at Vancouver last month that juvenile delinquency in B.C. has risen 28 per cent in the last year.

Informed last night of the damage at Heaney's, Mayor Claude Harrison, who heads the city police commission, said: "I think juvenile delinquency here is on the increase."

First Navy Pilots Get Wings Here

Three reservist midshipmen received pilot wings at HMCS Malahat last night at the first such ceremony here. The three, from left, Daniel Munro of Squamish, Patrick Dalton of Sidney and Ernest Radies of Vancouver, are

the first naval fliers to be trained on the West Coast. They are members of VC 922 Squadron, RCNR, based at Patricia bay. Cmdr. E. G. Savage, DSO, DSC, senior Royal Navy liaison officer in Canada, pinned on the wings.

Chancellor Clamps Down On U.K. Spending Spree

By RONALD MACLEURKIN

LONDON (Reuters)—Chancellor of the exchequer, R.A. Butler, Monday clamped down on a current national spending spree which is threatening inflation and peril to Britain's economy.

Butler told the House of Commons that from today on, people will not find it so easy to buy cars, radios, television sets, refrigerators and the like on the instalment plan. They will have to put down a down payment of 33.3 per cent of the total purchase price instead of only 15 per cent as before.

This and other stern measures had been expected before the chancellor made his speech. On what stockbrokers nicknamed "Black Monday," shares fell by many millions of pounds sterling today on the London stock exchange.

The chancellor also announced:

1. Banks are being told to haul in a lot of the cash they have outstanding in loans and overdrafts.

2. Government departments will be much stricter about authorizing all but the most essential plans for capital spending proposed by local authorities.

3. Spending on new projects within nationalized industries will be postponed or slowed up—but without jeopardizing such essentials as coal production and nuclear power.

Butler went on to knock the feet from under recent world-wide rumors that Britain intended to allow a wider fluctuation in the value of the pound sterling.

He said: "This has led to sales of sterling, which will adversely affect our reserves in July."

These rumors have reached such unreasonable proportions that I

cannot allow them to remain unanswered.

"I want, therefore, to make it clear that the British government regards the period in front of us as being one of hard work and consolidation to strengthen the home front before we make any further forward move on the exchange front."

Star Files Suit

HOLLYWOOD (UP)—Film star Elizabeth Scott Monday filed suit for \$2,500,000 against Confidential magazine on grounds it published a picture story which implied she was "prone to indecent, illegal and highly offensive acts in her private and public life."

The actress said the story in the September issue of Confidential was "willfully, wrongly, maliciously and completely without truth."

The suit was the fourth filed recently by well-known Hollywood figures against exposure magazines. The Superior Court action was filed by attorney Jerry Giesler for Miss Scott.

Giesler is also representing actor Robert Mitchum and tobacco heiress Doris Duke in suits against Confidential and singer Sammy Davis Jr. in a suit against Hush-Hush.

The suits against Confidential now total \$6,500,000. Mitchum seeks \$1,000,000, and Miss Duke \$3,000,000.

Oil in Water Tanks

Oil in Water Tanks Jinx Follows Mazatlan on Nightmare Cruise

After the first few days out, "the boilers started popping like corn," said Peter (Pop) McMullen, engine-room wiper and at "over 70" the oldest Canadian STU member.

Then "everything started to go haywire."

The stateooms near the engine room lacked air conditioning and the passengers slept on deck.

When the ship ran short of oil and water, it docked at Le Paz, Mexico. There the hoses got mixed up and oil was pumped into the water tanks.

At Le Paz the crew also found out there was little or no money on the ship.

"We needed groceries bad and most a month from the start of the ship-agent said he would give us some at Le Paz," said steward John Ball.

"He left us 26 watermelons and two packs of weiners."

All but three passengers left the Mazatlan when she reached Acapulco, saying they "had enough." Remaining were a newspaper woman, an 85-year-old man and a woman dancer.

On the return trip, only one of the ship's four boilers still functioned—for a time. When it blew out, the vessel drifted helplessly for 20 hours until picked up by a tug and towed to San Pedro, al-

most a month from the start of the two-week cruise.

While adrift, food became a serious problem. Lifeboat rations were raided and when these gave out, the crew and the three passengers subsisted on "pancakes, crackers and jam."

When customs men at San Pedro investigated the reported disappearance of 110 cases of liquor, one of the men went for a drink at a tap. Out came pure scotch.

None of the men interviewed knew how that happened.

"We expected to get a month's pay and maybe a bonus when we went on this junket," said one seaman, "but all we got was laughs."

Victoria Again Honors Bert

For his "magnificent swim" strait conqueror Bert Thomas is showing receiving a cheque for \$1,031.25, a token of Victoria's gratitude, from Mayor Claude Harrison. Mrs. Harrison is seen at left and Mrs.

Thomas, right, at civic dinner at Empress hotel last night. Big Bert promised to wear Victoria's gift flag on his boat when he tackles the Canadian National Exhibitions Lake Ontario competition in September.

Chinese Strength Held Aid To U.S.-Soviet Friendship

GENEVA (AP)—Diplomats speculated today that the United States and the Soviet Union drew closer together at the Geneva Big Four conferences because of the growing strength of Communist China.

It is an open secret that the Russians have been rather surprised and even a bit dismayed by the swift and total victory of the Communist revolution in China. It presents the Russians with the spectacle of a nation of nearly 600,000,000 promising to become a power along the Soviet borders.

At the Geneva conference, the chiefs of government of the United States and the Soviet Union talked face to face. President Eisenhower often spoke directly to the Soviet leaders without the presence of the British and French delegates.

ONLY LIP SERVICE
The U.S. consistently has opposed Red Chinese moves which Washington felt might lead to China's domination of the Pacific. On its part, Moscow has given lip service to the aspirations of its

CHINESE ADVANCE QUICKLY

Western diplomats returning from Peking have reported Soviet technical experts impressed at the way the Chinese are catching on to the business of industrialization. Furthermore, the Russians are reported to have noted that the Chinese are using new skills to turn their vast manpower into a formidable armed force which needs only nuclear weapons to make it practically invincible.

Many months before the Geneva "summit" conference was conceived, Western diplomats in Moscow were saying they detected growing Russian uneasiness about the China situation.

Such factors may have made it mutually advantageous for the U.S. and the Soviet Union to relax tensions between them while keeping a wary eye on big China, diplomats say.

Trio Facing Court Martial

WASHINGTON (UP)—The three turncoat U.S. soldiers who are on their way home after defecting to Red China will be arrested for court martial as soon as their ship docks in San Francisco Friday, defence department officials said last night.

A return to the lost art of parenthood is the real need today and the new thought in child rearing.

The Daily Colonist will tell the full story in a provocative series of 12 daily articles beginning Thursday. The series, by author Howard Whitman, is based on hundreds of interviews with child psychologists, juvenile court judges, psychiatrists, probation officers, welfare agency officials and parents, themselves.

The basic lesson learned is this: Fathers and mothers must learn to reassert their authority. They must learn to be guided by their natural instincts rather than the untested ideas of the so-called experts. They must learn to enforce discipline in the family and use punishment as a beneficial tool.

All this and more is explained in this startling, new series called "Parenthood Without Hokusai."

This series is called the welcome obituary of the mistaken notions and theories which child psychologists have foisted off on unsuspecting parents for the last 20 years.

Here is the evidence, from the lips of the experts themselves, that the "let the child do as he pleases" theories of child rearing have backfired not only against society, but against the very children who were reared that way.

The series touches on the problems with children of all ages.

Eisenhower Says:

Reds' Sincerity Faces 'Acid Test'

WASHINGTON (UP)—President Eisenhower said last night that the "acid test" of Russia's newly-professed spirit of co-operation will come at a showdown foreign ministers meeting in Geneva next October.

Mr. Eisenhower also said in a nationwide radio-TV report on last week's Geneva Big Four conference that the momentous meeting produced a "sharpened realization throughout the world that the United States will go to any honorable lengths to attain peace."

But, in firm tones, he made clear that it is up to the Russians to engage in "real conciliation" when the Big Four foreign ministers meet in Geneva next fall.

Mr. Eisenhower said that during the Geneva conference "each side assured the other earnestly and often that it intended to pursue a new spirit of conciliation and co-operation in its contacts with the other."

The president noted that it will be up to the foreign ministers to translate the "generalities" of the Geneva talks into "actual specific agreements."

West Germany's 79-year-old Chancellor Konrad Adenauer announced in Muerren, Switzerland, yesterday that he will go to Moscow in a personal attempt to hammer out a plan for German reunification before the Big Four foreign ministers meet in Geneva in October.

BERLIN—Soviet Communist party chief Nikita S. Khrushchev said yesterday of the Geneva conference that "both sides won the conviction that neither side wants war."

Unions Protest Foreign Ships

MONTREAL (CP)—Union forces are gathering their power for a struggle against British and foreign shipping in Canada's coastal trade, it was reported here Monday.

Hal C. Banks, president of the 14,000-member Seafarers' International Union (AFL-ILC), said he will raise the matter as a delegate at a special conference of the American Federation of Labor, beginning in Chicago, August 11.

Mr. Banks, recently returned from an international labor conference at Helsinki, said in an interview the problem already has been discussed among some Canadian unions.

Canada's three-labor congresses already have urged a royal commission on coastal trade—including great lakes business—be restricted to Canadian vessels.

Crux of the issue now is the building of the St. Lawrence seaway, with its opportunities

Bikinis Shock Lords

LONDON (Reuters)—London had a heat wave with temperatures above 80 degrees and women turned up at stately Lord's cricket ground in their bathing suits.

This was too much for C. B. Fry, who is 83, takes his cricket seriously and remembers when such going-on could not have happened in the sacred precincts of Lord's, home of English cricket.

One of England's greatest all-round athletes in his time, Fry is one of the few sportsmen who have represented his country at both cricket and soccer. A first-class Oxford honors graduate, he once held the world's broad jump record.

"Bikinis," he snorted and dashed off an explosive epistle to the editor of one of the popular evening newspapers.

Next time women appeared at Lord's in "Bikinis," he said, he would promenade in his pyjamas.

Among the replies he received Monday from the cynical, irreverent present generation, was this one:

"If Mr. C. B. Fry will promise to keep his word and will let me know when he is next attending Lord's I will be happy to supply the pyjamas, female and Bikinis."

Jinx Follows Mazatlan on Nightmare Cruise

VANCOUVER (CP)—A group of 70 seamen from the 33-man crew of a seized Liberian ship returned here Sunday by land from San Pedro, Calif., after what they described as a "harrowing nightmare" on the high seas.

Penniless but smiling, the men who set out on the steamship Mazatlan almost two months ago for a two-week cruise to Mexico and return, called the ship "jinxed" . . . 7,000 tons of razor blades.

The Mazatlan has been seized by the Seafarers' International Union (AFL) on a lien for back wages.

The British Columbia sailors

Police Seek Youths

Victoria's mounting juvenile crime wave erupted again Saturday night when vandals caused \$5,000 damage to nine trucks in a company lot.

Two teen-aged boys are believed responsible for causing the damage in broad daylight, and within sight and sound of Douglas street, in the Heaney Cartage and Storage Ltd. yard on Queen.

They crashed the vehicles into each other, and punctured holes in aluminum truck bodies.

Company president William Heaney told The Daily Colonist last night that it is the most severe blow struck by vandals against the company, which has been plagued for months by minor damage, petty pilfering and gas stealing.

He said keys are left in trucks in the lot for safety purposes, to enable quick removal of equipment in case of fire. Night-shift mechanics were not on duty at the weekend, and there is no watchman. The lot is fenced on all sides.

DESTRUCTIVE SPREE
The vandals started up the trucks and indulged in a destructive spree.

They collided some vehicles head-on, and sideswiped others.

Grills were broken and fenders ripped and crumpled. Truck bodies were pushed in, and the side of one truck box was ripped off.

An instrument was used to punch holes in the bodies of other vehicles.

Police discovered that two youths were seen running away from the lot early Sunday evening.

Investigations are continuing.

Vandals struck again last night for a second time in a week at Mount View high school.

They smashed three windows and entered the building.

HEAVY TOLL TAKEN
Vandals have been taking a heavy toll of school windows in Greater Victoria since the summer vacation began.

Police departments have many cases of malicious damage on file.

Three youths will be sentenced at Saanich court Thursday for smashing down a gate with a car and damaging three houses in an outbreak last week at Killarney Lake, Saanich.

They broke windows with beer bottles, smashed dishes and fittings, holed a canoe, destroyed drapes, bedding and furniture.

On June 7, a railway car was entered at the Canadian National Railway yard at Johnson street and hundreds of dollars worth of goods ruined.

C. E. Rivett-Carnac, RCMP assistant commissioner, told a magistrates' convention at Vancouver last month that juvenile delinquency in B.C. has risen 28 per cent in the last year.

Informed last night of the damage at Heaney's, Mayor Claude Harrison, who heads the city police commission, said: "I think juvenile delinquency here is on the increase."
